Subject: More on Microsoft

Hello,

Could you PLEASE put an end to this madness?? AOL is now suing Microsoft. Give me a break... I like Netscape. I like Internet Explorer... Let ME choose which I want. I do NOT want the court system determining which is better, which is more honest, which is more whatever. I WANT TO CHOOSE. Please end the suit and let the American Public decide with their "dollar votes"

Respectfully,

James K. Dahl
